INTRODUCTION

SAUDI AGRICULTURE

Presenting Agricultural Innovation for a Bountiful Future

2021 welcomes the 39th edition of SAUDI AGRICULTURE to the capital, an established exhibition showcasing leading technological advancements, innovative products and machinery alongside solutions for best practice in this sector. Under the patronage of the Ministry of Environment, Water and Agriculture, our event demonstrates the Kingdom's dedication to the industry with an aim to push boundaries, within the parameters of international compliance regulations, and join global leaders in advancing the agricultural land and seascape of the future.

SAUDI AGRICULTURE provides a trusted platform for technology pathfinders from around the world to spearhead new approaches to the industry providing investment opportunities, products and solutions for our attendees. Other areas of the exhibition focus on robotics in horticulture, bee hiving, livestock and sustainable green houses. Together we can revolutionize the future of farming and continue, with nearly 40 years of experience as a respected event, certifying the Kingdom of Saudi Arabia as a major player in the Agricultural sector. The conference program running throughout the show welcomes in depth discussions and debates on various topics including aquaculture and the implementation of measures required to achieve self sufficiency and food security in the region.

This established exhibition provides an additional gateway to other essential areas of the business, visitors can also attend; SAUDI AQUACULTURE, SAUDI AGROFOOD, SAUDI FOOD PACK and SAUDI ORGANIC FOOD; all events will run concurrently at the capital's leading exhibition venue. 4 events - 1 venue - 4 days.
